Master stateroom bathroom with integrated bath and shower
All en-suites are fitted with mosaic tiles
Port stateroom double berth conversion

The PRINCESS 82 Motor Yacht has the refined elegance that characterizes the renowned UK shipbuilder Princess. She distinguishes herself with her four en-suite cabins, three interior living spaces, four separate outside living areas and this particular model carries a unique 3-crewmenber area layout with 2 crew cabins with separate access from the transom.

With a top speed exceeding 30 knots, Princess has developed a flybridge yacht with sporty performance. With plenty of room on the entire deck, guests are given the opportunity to socialize while also providing privacy.

The flybridge is huge and has sunbeds and plenty of seating and a wetbar and also a hard top with opening sunroof making this a great place for a party or a pleasure to just stay at. The Portuguese bow deck is equipped with settees, table and bimini shade with stainless-steel poles.

The lounge is not only a nice place to relax, but also a dining room for eight guests. Large longitudinal windows on each side of the lounge provide guests with excellent views.

There is a full-width owner's cabin reminiscent of a luxury hotel suite with attached bathroom and walk-in closet. Starboard hull windows allow the owner to relax with the sea at eye level. Several double cabins with private bathrooms make up the rest of the guest rooms. When you move in the guest rooms you will notice PRINCESS 82 Motor Yacht's focus on detail and finish.

This 25.5m PRINCESS 82 Motor Yacht for sale, competes well with other yachts in its class and is a real pleasure to spend time on. This fine example of the model carries full options including an efficient stabilizer system and many smart customized practical options which facilitate liveability on-board.

The owners have recently invested a considerable amount updating the boat to a more modern higher standard. She has always been used private, carries low hours.

Engines:

MTU 10 V 2000 M 94 X 2 Diesel

1624 X 2 with shaft drive and 5 blade propellers

Engine hours 1800 H
