Tankoa T 580 2024 Asking Price: 64.5000.000 € Ex Vat

Available now in Spain. Viewing is highly recommended.

KEY FEATURES

Helideck: *Forward helideck for easy access.*

Beach Club: *Spacious aft beach club with fold-down bulwarks and a spa featuring a massage room.*

Fly Deck: *Equipped with a gym and a swimming pool.*

Garage: *Generous space accommodating two tenders, including a nine-meter limo tender.*

Accommodations: *Master suite and five guest cabins.*

Panoramic Corridor: *Unique lower deck corridor connecting cabins directly*

to the beach area, passing through a viewable engine room.

The T580, which was sold to an owner the Tankoa shipyard was already acquainted with. The 58-meter yacht is a full-custom project, designed for long voyages and with a range of over 5,000 nautical miles. Her sporty lines were designed by Francesco Paszkowski (and Margherita Casprini, who collaborated on the interior design).

The yacht boasts sporty lines and a combination of steel hull and aluminum superstructure, reflecting Tankoa's commitment to bespoke craftsmanship.

Tankoa T580 features the helideck at the bow, the large beach club with folding terrace, and a spa equipped with a massage room at the stern. The gym and the swimming pool are located on the fly deck. The large garage can house two tenders, one of which is a nine-meter "limotender".

The 'World Wide Explorer' has five guest cabins in addition to the owner's cabin. A particularly unusual feature is the long panoramic corridor on the lower deck, which connects the cabins directly with the beach area, passing through the open engine room.

This new yacht, first 58m, is the result of years of collaboration between the Paszkowski studio and Tankoa," says Eva Orsi, President of Tankoa Yachts. "I am proud of this new project, which for the owner represents an evolution of their previous 50m yacht. Its timeless profile, combined with some cutting-edge solutions, is the result of teamwork that involved the client, the designer and the shipyard, delivering a yacht that is the best combination of elegance and functionality. This build confirms Tankoa's reputation as a boutique shipyard.
