Video : https://youtu.be/ugdgnz-9P8g?si=r8yqhJ2XalGaPzN7

AZIMUT MAGELLANO 30M Superyacht for Sale.

- ***Azimut Magellano 30M***
- ***2023 – For Sale***
- ***10 Guests in 5 En-suite Cabins***
- ***Master on Main Deck Stabilized***
- ***En-route to Italian Riviera (DB)***

This 97’ 5” AZIMUT MAGELLANO 30 M yacht for sale, seamlessly blends luxurious living spaces with high performance, making it an ideal choice for both relaxing cruises and exhilarating voyages.

This stunning ‘almost-new’ flagship yacht, designed by renowned superyacht designer Ken Freivokh, boasts an exterior that is sure to catch eyes on the water, paired with an art deco stylish interior by Vincenzo De Cotiis that adds a touch of classic elegance.

Built to excel in navigation, the AZIMUT MAGELLANO 30M art-inspired ambience breathes elegance and abundance, with maximized spaces and luminosity, further enhancing onboard live ability. Destined for long-range cruising, she combines comfort and safety with high bulwarks and large windows to ensure constant contact with the beauty of the sea.

Delivered in 2023, the vessel boasts low running hours and has been full maintained by a very professional crew, all OEM services are up to date and current documentation is available onboard to view.

Her open-ended infinity terrace offers an unchecked view of the sea and the pleasure of conviviality feature in the cockpit experience, lavishing this lounge over the water with a unique and discreet charm. The height of the seat backs is considered to maximize the view as well.

The sense of space is expanded by immersive windows that encircle the salon on three sides, almost without interruption, to reveal even more of nature’s beauty. Natural light pours in, creating a new standard of communication between inside and outside, while enhancing the perception of space.

This AZIMUT MAGELLANO 30M proposes a well-appointed 5 en-suite cabin layout with the Master cabin forward on the main deck, and 2 VIP + 2 Twin cabins on the lower deck.

The Dual Mode hull is a highly efficient semi-planing hull designed to reduce fuel consumption and CO2 emissions **by up to 20% at medium speeds***, guaranteeing

superior navigation comfort in a wider range of sea conditions. The double-chine hull, combined with the vertical bow, minimizes the impact of waves and thus offers greater freedom of navigation, cruising comfortably at low speeds for extended durations as well as at higher speeds.

The yacht is powered by twin 1900 Hp MAN main Engines reaching 24 knots at maximum speed and comfortably cruising at 16 knots for a range of 500 nautical miles.

A 130kW/h lithium-ion battery pack can support the yacht's hotel load for up to 4 hours during the day and up to 8 hours at night. Now, it's possible to enjoy the full superyacht experience without the noise, vibration and emissions of the generators, making daytime activities more pleasant and nighttime relaxation more peaceful.

A UTA air extraction system continuously refreshes and treats the onboard environments. The staterooms below deck benefit in particular from the continuous flow of clean air from the outside, filtered to eliminate the majority of airborne particles and smells.

KEY FEATURES

- *Recent model with low running hours*
